WETASKIWIN, ALTA., THURSDAY

Automobile Factory Plans Are Now Prepared For a Solid Brick Building

The plans for the automobile factory which The Vulcan Corporation promise to erect here have arrived in the city and are in the possession of Mr. Sydney J. Hasel, who is a guest at the Criterion Hotel. These plans provide for a brick structure of very large proportions. The main part of the building which will be used for offices and warehouses is four stories in height, and two wings, at least five hundred feet in length each, two stories high, run north and south of the main building, which will be located near the railway tracks in the Weiler Addition. Mr. Hasel stated that it will be a month before work can commence as there is a lot of preliminary detail work to be attended to.

In an Edmonton paper, the McLean Construction Company, who are the prime movers in the undertaking, are advertising for "Manager for

Anniversary Number

In conjunction with this issue we publish an Anniversary Number commemorating the eleventh anniversary of the establishment of The Times. Owing to the large amount of work connected with a magazine of this nature, the issue is later in making its appearance than at first anticipated, but nevertheless, we trust that our efforts in this connection will be appreciated by our friends.

It was our aim in the preparation of this number to place the advantages of this city and district fairly before the world. As to the success we have achieved, we will leave it with you to judge.

We have a number of extra copies of the special issue on hand, which might be procured to send to distant friends at a nominal charge.

Police Court

During the past week Justices of the Peace Mills and McLean have had the usual quota of drunks and "vags." The latter, however, are pretty well cleared out of the city, through the diligence of Chief James.

On Wednesday three men, prominent in the city, were arraigned on a charge of fighting. Two of these were assessed \$5 and costs and the other was let off with \$1 and costs.

On Monday A. Bruna contributed \$5 and costs to the court for imbibing too freely, while J. Doyle did a similar amount at the same time on a similar charge.

On Saturday last another citizen became too noisy on the street, and he contributed \$5 and costs for his belligerence.

Baby Badly Scalded

The many friends of Mr. and Mrs. John Torrance were shocked on Thursday afternoon to learn that their little daughter had been badly scalded shortly after one o'clock. It appears that Mrs. Torrance had just emptied a boiler of hot water into the tub on the floor, and as she was hanging up the boiler the little child leaned over the side of the tub and fell in. She was severely scalded about the body and although everything within human power was done, she suffered terrible agony, and but little hope is held out for her recovery.

Mr. and Mrs. W. J. McNamara Have Narrow Escape

Mr. and Mrs. W. J. McNamara of this city, who have been on an extended trip to Havana, Cuba, arrived in New York last Wednesday, and are expected home Wednesday, May 1. During their stay in Havana they had an exciting experience fishing sharks during which they had narrow escapes from losing their lives. The Havana Post of April 17, gives the following account of it:

"Mr. and Mrs. W. J. McNamara and their little son, of Edmonton, Canada and Z. Meynold and Joseph V. Fernandez, of Havana, had a close call yesterday afternoon as they were returning from a shark fishing trip off Morro Lighthouse. They were in a gasoline launch, and were making the harbor entrance just as the Spanish steamer Antonio Lopez was going out.

"The launch was out of the way of the steamer, but the motor suddenly went dead, and the little craft was swept by the current into the path of the steamer. Cries of warning were sounded from the ship, although

those in the launch fully appreciated their danger. They had no oars, and barely managed to push their boat away as the steamer went by.

"The danger was not yet over, however, because the tug Venus, towing two dredges, came around the entrance of the harbor and almost bore down the helpless launch.

The tug was unable to stop, as the current would immediately have wrecked the barges in the narrow channel.

"The danger of the launch had in the meantime been seen from the signal station at Morro, an alarm station into the port police quarters.

A police boat was hurried to the scene, but those in the launch were again able to save themselves with the use of the oars by a narrow margin. They were extremely glad, however, to accept the tow of the police launch back to dock.

The fishers caught three sharks and hooked three more, which proved too much for them and got away.

The Churches Band is Grateful

METHODIST

Next Sunday's service will be conducted by the pastor. At the morning service it is expected that Mr. McNally will give an address to the young folk, it being the first Sunday in the month. Special offering at Sunday school in the afternoon.

On Friday night of this week a concert will be given in the church. Our Indian brother Rev. H. B. Steinhart, Rev. A. W. will assist in the programme. See bills.

PRESBYTERIAN

The Presbytery of Lacombe met in the Presbyterian church on the evening of Wednesday, the 1st inst., at 8 o'clock, for the purpose of inducting the Rev. C. E. A. Pocock, lately called into the pastoral charge of the congregation, but owing to the non-arrival of Mr. Pocock, adjourned until Wednesday evening the 1st inst., when the induction will take place at 8 o'clock, in the church, a number of ministers being present.

Mr. Pocock and family, are expected to arrive in the city on Saturday the 4th.

On Tuesday evening the proprietors of the Bijou Theatre very kindly gave the use of the Theatre, also the proceeds of the evening as a benefit to the Band.

The boys certainly appreciated this generosity, and tried to show it by turning out and playing as well as they were able. They also furnished a full orchestra which was as good as has been heard in the city for some time. The show was good and everybody enjoyed themselves.

The band has now paid for their new harmonica, but are trying to get two other instruments they are badly in need of. Of late they have been discouraged because they have been unable to have any practice, but as soon as they can get a rehearsal they will again give concerts on the street.

The Willing Workers of the Presbyterian church will hold a Rummage Sale, Saturday afternoon, May 4th on the corner, opposite Owen's, East Railway Street. All kinds of second hand clothing for sale.

Exceptional

MARRIED

DIED

JOHNSON—Near Wetaskiwin, on the 25th ult., Erick Johnson, aged 76.

Roads To Be Improved

At Least \$25,000 to be Expended on the Highways in The Wetaskiwin District This Year

It will not be the fault of Chas. H. Olin, the local member for this constituency, if the roads in the Wetaskiwin district are not greatly improved this year. He has realized for some time that the roads in his district were not what they should be and he has succeeded in getting a very liberal grant towards improving the conditions. A trunk road running westerly from Pigeon Lake will be completed to Buck Lake, and the roads in the district leading to the city will receive the attention due them. Mr. Olin estimates that this work will cost at least \$25,000. He is issuing instructions, however, that the work must be well done, even if the area covered is not as large as desired by the constituents in some parts of the district.

Publicity Commissioner

After the meeting of the members of the Board of Trade last week, the executive has lost no time in getting in touch with several good men who are well qualified to take up the publicity

work for Wetaskiwin. In the course of a few days other applications will be received, when the executive will hold a meeting and will make a selection.

Town Topics

Chas. H. Olin is at Calgary this week on business.

R. H. Mills, of Sedgewick, who went to Calgary recently for treatment for rheumatism, returned to the city last week slightly improved, but he was not sufficiently convalescent to proceed home, and remained over at the home of his brother-in-law, Ald. Compton.

Miss Haughn, of Red Deer arrived in the city on Thursday to spend a few days at the home of Mrs. Geo. Bayless and other friends.

The officers and members of Wetaskiwin Lodge No. 8, I.O.O.F. commemorated the ninety-third anniversary of the founding of the order in America on Sunday last by attending Divine Worship in a body. The service was held in the Methodist church and was conducted by the pastor, Rev. A. R. Aldridge, D.A. Excellent music was rendered by a double quartette, and Miss Thorley and Dr. Conn rendered a beautiful duet.

H. I. Miller, who was called to Ontario about a month ago, owing to the demise of his father, returned home on Monday morning last.

The regular monthly meeting of the Wetaskiwin A.M. Society will be held in the council chamber, on Tuesday, May 7th, at 4 p.m.

Ed. Nunneley, who has been confined to the home for several days by rough illness, was able to be down town on Thursday looking after business.

A lively runaway took place in the city on Thursday when a team belonging to R. Nichol dashed down Railway street and as they turned the corner of Pearce street they ran into the wall of the Driard Hotel and proceeded on their mad rush up the side walk. They had not gone far, however, when the collision with a telephone pole and were heroically caught by Jas. E. Henderson. Fortunately the only damage was done to the wagon, which had a wheel and tongue broken.

D. J. McKitterick has purchased the Hervey Page cottage on Lorne street, and moved therein last week. The house vacated by Mr. McKitterick has been leased by W. F. Crane, and J. P. Johnson will occupy the house vacated by Mr. Crane.

The annual examination for pupils in music conducted under the auspices of the Royal Academy of music was held on Wednesday. Five pupils who have been under the training of Mr. Claude Hughes presented themselves for writing at Wetaskiwin. The examination was held in the school rooms of the Methodist church, under the supervision of Rev. A. R. Aldridge.

If you want kid gloves we would advise you to go to Thibault's, they are offering the whole stock, no reserve, Fowne's, Perrin's, etc., all at \$1.00 a pair. The biggest snap we ever saw.

Norman MacEachern, who recently concluded his term at the provincial university, was visiting at his home this week. On Wednesday evening he left with a survey party for the vicinity of High River, where he will spend the summer getting practical experience in his chosen avocation.

Supreme Court Civil Sittings

The Supreme Court Civil Sittings commenced Tuesday, the 23rd, ult. in this city and the undermentioned cases were down for hearing before the trial Judge, the Hon. Mr. Justice Simmons.

Jury Cases:
Gardner vs. Ferguson & Wolf.
N-Jury Cases.
Revelotke Saw Mill Co. vs. Heighington, James Aitken.
Warren vs. Bittner.
Reid vs. Montgomery & West.

Gardner vs. Ferguson & Wolf was the first case to be heard. This was an action for damages. A jury was empaneled consisting of A. Trussler, Enoch Groves, T. G. Bosworth, J. P. Cook and A. B. Everts.

His Lordship dismissed the action with costs. Mr. Knox appeared for the plaintiff and Mr. Charters of Leduc, was the solicitor on the record for the defendants. Mr. Loggie of this city appeared as Counsel. After the conclusion of this case the court adjourned to the following day.

On Wednesday morning the court resumed and Sidney Woods K. C. of Edmonton and A. Walker, Esq., of Calgary asked the court to leave to take the evidence of certain witnesses then in court, in an action of Lessard & Drnis vs. the C.P.R. an Edmonton case which had not been concluded. This was allowed and on the close of this Mr. Walker left for Calgary.

Revelotke vs. Heighington et al. This case arose out of a contract for lumber supplied to the Dreamland Theatre in Wetaskiwin and a steam Laundry owned by the defendants. A mechanics lien was filed and an action arose out of this and was dismissed of first. The action was dismissed against one of the defendants, A. I. Dickson, with costs but sustained against some of the other

defendants. The other action not arising out of the mechanics lien was taken up and the argument and evidence lasted over two days. Finally a settlement was arrived at and judgment by consent was entered.

Mr. Wilkins was the solicitor on the record acting for the Revelotke & Co. and with him as Counsel was Sidney Woods, Esq., K.C., of Edmonton. Mr. Loggie appeared for the defendants Heric and Dickson and Mr. Knox for Mrs. Heighington.

The case of Warren vs. Bittner was one arising out of a claim for wages. The defendant admitted that some wages were due to the plaintiff, but the amount was at variance. The parties failed to agree as to the amount actually due and the matter was brought into court for settlement and to have the contract between the parties interpreted. Judgment was given in favor of the plaintiff for \$393.85 with costs on District Court Scale. The defendant contumeliously for damages done to a team but afterwards withdrew it and had to pay the costs. Mr. Manley of Loggie & Manley, appeared for the plaintiff and Mr. Jackson of Ponoka, appeared for the defense.

Reid & Co. vs. Montgomery & West. This was an action arising out of the shipment of certain goods the order for which it was alleged had never been given. Judgment was handed down in favor of the defendants, Montgomery & West. Mr. Aitken of Messrs. Aitken & Wright, Calgary, appeared for Messrs Reid & Co. and the defendants were represented by Mr. Knox.

This concluded the list of cases and the court rose Friday night and Mr. Justice Simmons left for Calgary that evening.

Local Representatives Wanted
to introduce the popular, improved residential subdivision of
Boulevard Heights
Moose Jaw

This property is endorsed by the City Council and Board of Trade—building contracts have already been let by many local purchasers. The property is high and dry, beautifully situated, well improved, sold at reasonable prices and terms under a non-forfeit of payment contract.

This is an exceptional opportunity for reliable and active salesmen to get in line with one of the strongest and most dependable companies in Western Canada.

Application must be accompanied by three local references. Address, communications to:
THE SALES MANAGER,
Canadian City & Town Properties, Ltd.
284 Portage Avenue Winnipeg, Manitoba.

GANG OF BEGGARS ARE SYSTEMATICALLY WORKING THE COUNTRY

Claiming to be deaf and dumb, and working on the credulous by the statement that he is endeavoring to collect small amounts of money to him to secure enough money to start a business for himself, John Larson, a busy looking young man was hounded in by the police on Saturday morning.

On his effects being searched at the police station long lists showing that he has been working all over the east and through the mountains were found, together with other letters showing that the man is only one of a gang who have been systematically working the country, and who had made arrangements to meet in Calgary during the present week. One of these men has already been located, and the police believe that they have sufficient knowledge now to round up the whole gang when they arrive.

The man in the cells still persists in stating that he is deaf and dumb, but he has no knowledge that the police have secured his effects and know of his transaction. The gang has evidently been working on a large scale, as appeals in Italian, German, Swabian, French and several other languages were found in his grips, together with several prepared lists and a number of certificates, purporting to be from clergymen and doctors stating that the man is a mute—News Telegram.

HOW FARMERS MAY OBTAIN BEST AND LARGEST PERIOD OF MACHINERY EFFICIENCY

From now on till winter places its ban on actual farming operations, farmers will be continually placing back various implements and machinery that have played their part in the work of the season. In this connection it may be asked: "How many do any more than just set them aside?" Not very many, it is to be feared. Yet machinery is one of the greatest items on the expenditure list of the agriculturist, so that it is surely worth while to take at least ordinary care of it. A little oil, judiciously applied, will keep the bearings, chains, gears, etc., from getting rusted, and the machine will work much more easily when it is taken out again. A slight attention to the shedding of farm implements too would mean a longer period of active service. Exposure is bad for machinery as well as human beings.

Cook's Cotton Root Compound.

The great Urinary Tonic, the only remedy for which women can depend. Sold in three degrees of strength—No. 1, 2, 3. No. 2, for general use, 50¢ per box. Sold by all druggists, or sent prepaid on receipt of price. Two samples free.

Cook Medicine Co., 10-12, East, University St., Windsor

CAUGHT HEAVY COLD.

Left Throat and Lungs Very Sore.

There is no better cure for a cough or cold than Dr. Wood's Norway Pine Syrup.

It is rich in the lung-healing virtues of the Norway pine tree, and is a pleasant, safe and effective medicine that may be confidently relied upon as a specific for Coughs, Colds, Bronchitis, Hoarseness, Sore Throat, Quinsy, and all Throat and Lung Troubles.

Mr. S. Monaghan, Charlottetown, P.E.I., writes:—"I truly thank Dr. Wood's Norway Pine Syrup is an excellent medicine for coughs and colds. Last winter I contracted a heavy cold which left my lungs and throat very sore. I had to give up work and stay in the house for two weeks. I used several cough cures, but got no relief until a friend advised me to use Dr. Wood's Norway Pine Syrup. Three bottles entirely cured me, and I can recommend it as the best medicine for coughs."

Don't be imposed upon by taking anything but "Dr. Wood's" as there are many imitations of this sterling remedy on the market.

"Dr. Wood's" is put up in a yellow wrapper, three piece trees the trade mark; price 25 cents. Manufactured only by The T. M. B. Co., Limited, Toronto, Ont.

For Sale by Red Cross Drug Store

The biggest stock of ladies' skirts is at the Thibaudens Trading Co's. They handle the Foley-Gardner skirts and Milade suits, the best fitting suits and skirts. Special prices this week.

A simple and good rule to remember and to follow is to buy nothing in the baking; powder line unless all the ingredients are plainly printed in English on the label. This information is stated on every package of Magic Baking Powder. All grocers sell it.

CROP PROSPECTS

That the prospects of a large and good crop in this district were never brighter is indicated by inquiries made among the farmers. The reports indicate that spring work has started at least two weeks earlier than was the case last year. In many cases the farmers are at work three weeks earlier than a year ago and are now busy discing and plowing. In some cases things have started but as a rule the farmers have their own ideas as to when seeding should commence. The first of May is considered early enough for spring wheat and the middle of May for oats.

The only drawback this year is one that the early opening of spring will largely minimize, namely that the inclement weather last fall and the late start of the harvest and thrashing prevented farmers from doing anything like the usual amount of fall plowing. As a consequence the average in some of the oldest and most settled districts will be smaller this year and more land than usual will be summer fallowed. But this reduction will be far more than swallowed up by the increase of new settlers.

Another effect due to the conditions of last fall will be shown in many districts because it will be impossible to have the land ready in time to receive the seed. A big increase in the average seeded to coarse grains in this province may, therefore, be looked for. Fall wheat seems to have come through the winter well.

Edmonton, Alta., April 25.—On condition that the property be kept up by the city as park lands, the governors of the University of Alberta are planning to turn over to the city a portion of the university grounds extending from the brow of the river to the city of Edmonton. One of the conditions on which this will be done, it is understood, is that the by-law giving the city the right to purchase the golf links from the Hudson Bay Land Company is carried. If this by-law will be voted on May 7, passes, and there is every reason to believe that it will, the city will have an immense park centrally located. It will stretch from bluffs to bluffs on opposite banks of the river, and if the property at present owned by the university is presented to the city, will contain over 300 acres of land, the most of which is wooded.

A NEW DISCOVERY

Machela, Nature's Sealb Tonic, the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. Has a real power for growing hair—35¢ a box of 100. Price for complete home treatment, \$1. Sold and guaranteed by H. L. Higgs, Druggist.

Orchard and Garden.

Most people protect their roses by tying burlap or straw around them, but the best way is to lay them down and cover with six inches of dirt. When killed by the frost, most of the asparagus tops and burn them. Then give the bed—and the rhubarb plants too—a thick winter overcoat of stable manure.

The demand for nuts is growing, and as a result they are increasing in value as a market crop. Start trees of this kind in windbreaks, hedges and shade. Once started they require little attention.

Common wood ashes, with a few poultry droppings, are a cheap and most approved fertilizer for grapevines. Too rich a fertilizer, such as stable manure alone, produces a growth too rank.

DREADFUL POISONS.

The Poisons of Mercury Methide Will Produce Incurable Illness. "The most dreadful poisons," said a chemist, "are only known to a few men. Mercury methide, for instance, the fabrication of whose fumes produces incurable illness, can be manufactured by two Italians and by no one else in the world."

"Dithion is a poison used in India, it, too, produces incurable illness. A British army officer told me of a case—a case of two rival tailors, one of whom gave the other a small dose of dithion. The victim of the drug remained an idiot all the rest of his life. He sat and moved his empty hands as though he were sewing. He was a formidable rival no longer."

"Mercaptan produces a melancholy as great as is furnished nearly anywhere in nature. No government would permit the manufacture and sale of this poison."

"Dithion, mercury methide, mercaptan and some twenty other poisons are neither made nor sold in any public way. They are only experienced with. Such poisons would be formidable weapons in unscrupulous hands. Devising their victims to suicide or to insanity, they have been used in many suspicious or untoward. The give of these poisons is secure from any fair-minded person."

READING NOTICE
Further details of the great chain
of palatial hostilities which the
Grand Trunk authorities expect to
have completed with the opening of
the G. T. P. in 1914 are now to
hand. Plans for the Edmonton hotel
are completed and the contract is soon
to be let. Provision has been made
for more than one hundred and fifty
rooms, and the total will be over
\$750,000. A similar building is
planned for Regina, and one of the
finest hotels of the entire series will
be built in the vicinity of Mount
Rosen, while the final link will be
at Prince Rupert. All will be furnished
and fitted out in the same artistic
and elaborate manner as the Chateau
Laurier in Ottawa and the Port
Gerry in Winnipeg, now nearing completion.
A grand opening of the entire
system is planned for the trip of
the first transcontinental train and it
is hoped that negotiations being
carried on with the British Government
may result in securing His Majesty
George V. as one of its passengers.
Such an event would be
indeed be an auspicious inauguration
for Canada's great national line.

Sunday School Lesson

By EVANGELINE

THE HAVES AND THE HAVE NOTS
May 5th. Luke 6:20-26; 16:19-31.

He said "Blessed are ye poor for
yours is the kingdom of God—but
woe unto you that are rich; for ye
have received your consolation."

This repetition of some of the
things said in the sermon on the
mount taken together with the incident
of Lazarus and Dives used as an
illustration from the lesson.

Did The Man of Galilee really teach
that every one is poor, or hungry,
or sorrowful, or despised, or blessed,
and that every one that is rich, or
satisfied, or merry, or popular, is ac-
cursed?

Did He place a premium on shift-
lessness, improvidence, extravagance,
waste, indigence?

Was He an evolutionary or a revo-
lutionary socialist—an avowed enemy
of the capitalist?

If so what amount of fixed and li-
quid assets formed the boundary line
between the condemned capitalist on
one hand and the approved bankrupt
on the other hand?

A misapprehension of this and other
passages has led to false conceptions
as to our Lord's true attitude to-
wards riches.

The beatitudes and anathemas
of the lesson were not addressed to
representatives of capital and indig-
ence but to the disciples: "He lifted
up his eyes on His disciples and said
"Blessed are ye poor," etc.

The disciples were "poor in spirit,"
as He had just said in His sermon
on the mount. They had learned self-
abnegation at the feet of Jesus. They
hungered and thirsted for righteous-
ness. They lived in fellowship with
The Man of Sorrows, sharing His
grief over sin, and His rejection by
the world—a fellowship involving the
highest degree of happiness possible.

While pronouncing upon the dis-
ciples His fourfold benediction His
eyes fell upon Lazarus gripping the
hem of his robe. Lazarus, the blind
beggar who had been cured by Jesus,
pronounced the fourfold anathema:
"Woe unto you that are rich for ye
have received your consolation. Woe
unto you that are full now for ye
shall hunger. Woe unto you that
laugh now for ye shall mourn and weep.
Woe unto you when all men speak
well of you for in the same manner
will they hate you, and will slay you,
because they hate you for ye have
rejected him who sent you." Lazarus
had been cured of his blindness, but
he could hardly tolerate such
devotion as Mary showed in pouring
her alabaster box of ointment upon
the feet of Jesus. "Woe" it was not
said for three hundred pence and given
to the poor? This he said, not
because he was a thief and had the bag
and bare what was put therein."

Jesus knew to what lengths His
love of Money would lead him and
He pronounced upon His sentence.

Though the words were addressed
to the twelve particularly, they may
be applied generally to all who are
poor in spirit, and hunger and thirst
after God, as well as to all who at-
tempt to find satisfaction in riches.

The words were not directed at
material riches and in fact no posses-
sion of riches was a bar to posses-
sion of the kingdom of God. Posses-
sion of riches which leads to
extreme poverty of soul, and in fa-
vor of knowing the spiritual secret, of
His and of full satisfaction in God
though lacking all material posses-
sions.

While this is a fact and cannot be
controverted the converse is equally
true.

Blessed are those rich who, having
perfect satisfaction in God, hold
their riches as a sacred trust
from Him as instruments of unselfish
good, and use to the poor, who lack
satisfaction in God, lack everything.

The supreme note of the lesson is
the Golden Text, "A man's life consisteth
not in the abundance of the
things which he possesseth." "Life
is not derived from possessions and
therefore cannot be sustained by
them."

BACK WAS SO LAME
LIFE WAS A BURDEN
FOR TWO YEARS.

Mrs. Joseph Throp, Upper Point
de Bute, N.B., writes: "I cannot speak
too well of Doan's Kidney Pills. For
two years I was so tired that when I went
to bed, and my back was so lame I
could hardly straighten up. I took
different kinds of medicine, but none of
them did me any good until a friend
advised me to try Doan's Kidney Pills.
I did so, and to-day I don't know what
it is to be tired, and my back is all
gone. I can recommend them to any
person suffering with lame back, and that
terrible tired feeling."

Doan's Kidney Pills are a purely vege-
table medicine, realizing quick, permanent
relief, without any ill after effects.
Doan's Kidney Pills are 50 cents per
box, or 3 boxes for \$1.25, at all dealers
or mailed direct on receipt of price, by
The M. J. Doan Co., Limited, Toronto, Ont.

If ordering direct, specify "Doan's."

FOREST GARDENERS.
Shop of the Hare and Seeds. Devoted to
the legitimate Forest Gardening by the
Hare and Seeds.
and Grow to Trees.

"Has it ever occurred to you what
are the real gardeners of the forest?"
asked an old friend of mine, Mr. Hare,
Park, Quebec, as reported in The
Toronto Globe. "I never heard of
anyone," I replied, "except the park
planters, but from what I have
observed during ten years of friendship
with the park authorities, I am
satisfied that, and not the acorn, are
father to the oak. Whether a squirrel
plants trees supplied by industry
I am not prepared to say. Their
industry may be explained by a less
artificial theory. Observing many
acorns during autumn time and how
busy he is in laying in a stock
of provisions for winter. Dishes
and bulbs of acorns and nuts are
gathered by the little fellows and
stored in the hollows of trees and in
other accessible nooks. When these
are filled the squirrels hurry, like
treasurers in the ground. Usually, like
a streak of lightning, he whisks
about under oaks, picking acorns and
burying them in the ground in a
thousand and one spots. From a
squirrel to suspect he and his mates
are busy storing away the precious win-
ter supply."

"The buried nuts are the first con-
sumed by the wise little animal, who
knows a time will come when the
ground will be frozen hard and
covered with snow, after which the
supply locked away in tree hollows
must be depended upon. Doubtless
many of the acorns buried by the
little planter are forgotten. Others
are covered under snow before he has
a chance to dig them out. In either
case, an acorn has been planted
delicately as it is by hand of man, and
only the power of the ground and the
warm spring sunshine are needed to
coax forth the oak."

"What takes place in the park
doublets happens in woods and for-
ests all over the globe. Frequently,
gardeners experts say, young nut
trees are found peeping out of the
ground in early spring too far from
any parent tree to account for wind
having blown the kernels on to the
wings. Similarly, exterminate the
squirrels in any section of woods
and the forest will be a barren
place. It is a well-known fact that
seeds of plants frequently become
buried in the ground by wild animals
only to be shaken off and to take
root at some point far distant. But
the planter, I think, I discovered
myself."

"It is a wonderful thing when you
come to consider what part
trees, bushy-tailed animals may
play in the history of our coun-
try. The decayed, old, and
famous men-of-war—own their exis-
tence primarily to the little paw of
the soft-furred, soft-eyed, little
squirrel."

OWLS IN WINTER.
Where They Hide and How They
Manage to Get Food.

Owls are much commoner in winter
than in summer. It is to be believed by the
occasional specimens which are seen abroad
the daytime. If we searched the
hollow trees systematically any morning,
we should probably discover several
screaming owls and perhaps some of
the larger species. We might be sur-
prised to find some of the screaming
owls and others gray, and like the
early ornithologists, we might conclude
that the difference in color was due to
difference in age or sex. It is now
known that there are two distinct color
phases of this species not dependent
on either age or sex, though just what
they are dependent on is not yet known.

When taken from their retreats in
winter, these owls frequently feign
death, shutting their eyes and lying
perfectly still in the hand. By and by,
when they find that their little rise
does not succeed, they will snap their
tongues and scratch in a solemn but
very effective manner. How many
times we get enough to eat on the
basis of this is a mystery to those
unacquainted with the woods; but, as
a matter of fact, there is very much
more to be known than is generally
apprehended. Wild tales are very nu-
merous, a fact which is attested by
the footprints on the newly fallen
snow, and owls are most expert mouse
catchers. Their hearing is so acute
that not a squeak escapes them, and
they themselves are so soft on the wing
that they do not alarm the game—Winn-
ham's Home Companion.

Don't let repairs eat up your profits
Whether they represent actual cash outlay, or
only the time of yourself and your help, repairs
are waste just the same. When you make an
improvement—no matter how small its cost may
be—let it be permanent. Then it is a real investment,
something on which you can realize in cash should you decide to
sell your property; and something that will pay you constant
dividends in convenience, sightliness and comfort as long as
the farm remains your own.

Concrete Improvements Are Permanent
They last as long as the very hills themselves. They do not
require experts to build them. Their first cost, in most cases,
is no more than for inferior materials.

Aren't you interested in the subject of permanent, modern
farm improvements?

Then write for the book that describes hundreds of them—
"WHAT THE FARMER CAN DO WITH CONCRETE"

Isn't a Catalogue. Every one of its 160 handsomely illustrated pages is interest-
ing. It tells you how to construct, how to use it, what can be done with it,
with it. The book was printed to sell for 50 cents, but we have a copy for you, free.

SNEEZING SEASON ENDE

Wise is the man who will declare, "I'll stick to heavy underwear."
"It may be spring, and all of that. But in thick flannels I'll stand pat."
He's not the man who goes "Ker-choo" Whose nose is red and eyes are too.
He goes each day down to his biz, And suffers not from rheumatiz.
He's not all bungled up with the grip, And awful d-sees has to slip.
He has no bones that pain him sore, The doctor stops not at his door.
Spring cannot fool him with a smile, He's sense enough to wait awhile
Before he puts on garments thin, Like some folks do, then are "all in."
He doesn't rush his lightweight coat, So gentle spring gets not his goat.

ALBERTA SUMMER SCHOOLS

During the holiday season of 1912 three summer training schools will be held in Alberta under the direction of the Alberta Sunday School Association assisted by the Evangelical Denominations. These summer schools will be held at: White Sand Beach, Cooking Lake, twenty-eight miles east of Edmonton; at Sylvan Lake, sixteen miles west of Red Deer, and at Banff, Rocky Mountain Park. The Cooking Lake school runs from July 10th to 18th; Sylvan Lake school, July 24th to Aug. 2nd; Banff, Aug. 7th to 14th, being ten full days at each school.

Men of master minds, experts in their departments, will conduct the study classes. Sessions will be held from 9 a.m. to 12:30 p.m., leaving the afternoon free for recreation up to 8 o'clock when a public meeting with popular addresses will be a feature. The Alberta Sunday School Association provides tents for auditorium and class rooms, and will furnish sleeping accommodation to a limited number of students. Meals will be served table d'hôte or cafeteria. Detailed information may be had by applying to F. E. Werry, General Secretary The Alberta Sunday School Association, 19 Mackie Block, Calgary Alta.

GROWING 100 VARIETIES OF POTATOES TO EXHIBIT

Lethbridge, Alta., April 30.—Tillman Reuter, member of the executive committee of the International Dry-Farming Congress for Oregon, informs the Executive Secretary-Treasurer, J. A. Burns that Oregon will be represented here October 21-28 next, not only by himself but probably by several districts, and possibly by the Oregon State Agricultural College at Corvallis.

Mr. Reuter has reserved 75 feet of space for an individual exhibit and will compete for all prizes possible.

He writes that he will enter probably 100 varieties of potatoes, and that while he does not desire to compete single-handed against the government exhibit, he is willing to take his chances, and serves notice upon the Canadian farmers that they must go some to beat him in vegetables this fall.

He won the largest number of prizes of any exhibitor at the exposition at Spokane, and at Colorado Springs last year he won 26 prizes. One of his feature exhibits will be watermelons, and he promises to bring to Lethbridge some watermelons that will make Chairman McNiel of the Exposition Committee devote one whole day to a watermelon feed.

Mr. Reuter is already putting in his crop and he reports conditions in Oregon as excellent. He recently received a call from President Kerr and Prof. Snodder of the Oregon Agricultural College at Corvallis, who after inspecting his large dry-farm expressed themselves desirous of establishing a dry-farming experiment station in his vicinity. The dry-farming movement is growing rapidly, he reports, and he looks forward to a large delegation from Oregon attending the Seventh International Dry-Farming Congress at Lethbridge in October.

Oklahoma City, Okla., April 29.—While there have been no additions to the list of 54 killed in the storms which swept through a section of Oklahoma Saturday, the number of injured is much larger than at first reported. The property loss is greater than indicated in yesterday's reports. Wire communications has not been restored to many of the gale-stricken points.

A SIMPLE TREATMENT THAT WILL MAKE HAIR GROW NOW SOLD IN CANADA

Every up-to-date woman should have radiant hair. There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the great American Safe Hair Tonic. Every reader of The Times can have an attractive head of hair in a few weeks by using Salvia.

Walzer's pharmacy sells a large bottle for 50 cents, and guarantees it to banish dandruff, stop falling hair and itching scalp in ten days, or money back. SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

BABY RATTLESNAKES.

From the Moment of Birth They Take Care of Themselves.

The fallacies surrounding the rattlesnake begin with the very naming of the reptile. Many suppose that, like the garter snake, the bull snake, the members of the "rattle" family and our other nonpoisonous snakes, the rattlesnake is hatched in broods numbering from forty to eighty. Not so. Rattlesnakes are born into the world, as are all members of the viperoid family, in litters numbering from seven to twelve.

Between the middle of July and the middle of August the babies appear. Lively, self-reliant, dangerous little fellows they are, fourteen inches long, 30 thicker than a lead pencil, marked with a single button at the end of the tail, the first link in the series of rattles to be developed, ring by ring, with each shedding of the skin.

Moreover, eyes gleaming, the long member lies extended across the back of a sand hummock beneath the fan-like leaf of a dwarf palmetto, glaring coldly at her active, squinting babies. For a brief half-hour she rallies; then she drags herself away, for from the first moment a young rattler enters the world he is independent of his mother and eminently able to shift for himself. Each young snake is a full-fledged rattler, ready to hunt and ready to defend himself with the sting of death. Each flat, triangular little head is provided with the long, sharp poison fangs containing the identical venom of the mother snake.

THREE GREAT AMERICANS.

A Glimpse of Emerson, Thoreau and Hawthorne.

Mrs. Rebecca Harding Davis says in her "Bits of Gossip" that Emerson as she met him in Concord in 1892 was a typical Yankee in appearance: "The tall, gaunt man with the watchful, patient face and slightly dazed eyes, his hands clasped behind his back, that came slowly down the shady village street toward the Wayside that summer day was Uncle Sam himself in ill-fitting brown clothes. I have often wondered that none of his biographers have noticed the likeness."

Emerson said to Mrs. Davis: "I wish Thoreau had not died before you came. He was an interesting study." She asked why, and after a moment he replied: "Henry often reminded me of an animal in human form. He had the eye of a bird, the scent of a dog, the most acute, delicate intelligence, but no soul. No," he repeated, shaking his head with decision, "Henry could not have had a human soul."

Mrs. Davis remarks on Hawthorne's shyness and on his love of seclusion, which indeed was a family trait: "Personally he was a rather short, powerfully built man, gentle and low voiced, with a shy, elusive humor gleaming sometimes in his watchful gray eyes. The portrait with which we are all familiar, a curled barber shop head, gives no idea of the slender, indolent, sholy charm of his face. There was a mysterious power in it which I have never seen elsewhere in picture, statue or human being."

Verdi said to Mr. Hill. When "Aida" was first played at Milan an amateur living at some distance came to hear it, but was disappointed. To make sure he tried it the second time, with the same result, whereupon he wrote to the composer complaining of having been put to considerable expense on his account for nothing and enclosing a bill for thirty-two lire, with a request for the money. Among the items was one of two lire for a "detestable supper." Verdi deducted tals on the ground that he might have had supper at home, but forwarded the balance on condition that his correspondent signed a formal agreement not to go and hear the opera again, which agreement was strictly fulfilled.

The Horse During the Middle Ages.

The importance of the horse during the middle ages, especially in the crusades and in the tournaments which followed in the wake of the crusades, is significant. Fully half the glimmer and romance that surrounded the knight belonged to the horse, for without the horse those daring deeds in behalf of the weak and suffering had never been done. The horse, however, has had his reward, for the best feature of the middle age outside the church, is closely identified with his name, lasting traces of which are seen in the noble word "chivalry."

Do Animals Think?

The following facts, which I saw with my own eyes on repeated occasions, fully convinced me that animals have the powers of memory and thought. I once had a three parts head black and tan terrier, which slept in a basket in my bedroom that opened into the nursery. One of my children, was from ill health very fractious, and whenever they heard it cry she would go into the nursery, hunt about until she found a squeaking rag doll, take it to the side of the cot and, sitting up, shake it to amuse the child. If in doing this she did not display powers of memory, thought and reflection I utterly fail to see to what her clever performance could be attributed.—London Globe.

Silver Thaw.

"Silver thaw" is a name applied to winter phenomenon of frequent occurrence at Ben Nevis observatory. It consists of rain falling when the air is below freezing point and congealing whenever it reaches the ground. Of course this points to an inversion of the temperature, which is lower on the mountain top than at greater heights, and, being largely associated with a cyclonic distribution of pressure, it is of considerable "forecasting" value.

Cantinas.

Markley—I say, suppose you pay me back that 10 shillings you owe me now." Burroughs—Really, old man, I can't do that. Markley—But you've got it to spare today. Burroughs—I know, but there's no telling when I may need it.

Shiloh's Cure
QUICKLY RELIEVES COUGHS, CURES AND HEALS THE THROAT AND LUNGS. 25 CENTS

Natural Varanases.
Fluid resins or oils from several different trees are extensively used in the Philippines as varnishes. One of them called oil of agni, is a pale yellow liquid when fresh, but it becomes dark and viscous after contact with the air. Spread in a thin layer it dries slowly and forms a hard varnish. It is also capable of being burned in a lamp. Another natural varnish is banana oil, also called oil of sapling. It is white when fresh but darkens after exposure and makes a very tough varnish. Oil of panna is a third variety, inferior to the others in its drying properties. Chemical analysis has shown that all these woad oils consist entirely of hydrocarbons known as sesquiterpenes.

Turtles as Gardeners.
The possiblers with carts who supply the occupants of villas in the environs of Paris with cherries and other small fruits frequently carry for sale a few small turtles. They are purchased by the inhabitants of the villas to be placed in their gardens, where they are believed to serve as very effective aids to the gardener by preventing the ravages of the insects and other small creatures which are accustomed to do much damage to the flower beds and borders.

Carlyle on Disraeli.
William Black, the novelist, in his reminiscences of Carlyle, reports him as saying: "There's that man Disraeli. They tell me he is a good speaker. Perhaps I do not know what a good speaker is. But I read a speech of his that he delivered in Glasgow a year or two ago, and it appeared to me the greatest jargon of nonsense that ever got into any poor creature's head."

A Freak of Nature.
A tree that is a freak of nature is the Asiatic star tree. It grows sixty to eighty feet tall, and for a height of about forty feet the trunk is wholly bare. From that point there spring a number of tangled limbs, which shoot out clusters of long pointed leaves, and these, grouped together, emit at night a phosphorescent light.

Cautions.
Jacks—Gawley is an exceedingly cautious man, don't you think? John—Cautious! Why, he wouldn't pay a compliment without getting a receipt for it.
The song that we hear with our ears is only the song that is sung in our hearts.—Gould.

HAD WEAK and DIZZ SPELLS COULD NOT SLEEP AT NIGHT.

People all over this land toss night after night on a sleepless pillow, and do not close their eyes in the refreshing slumber that comes to those whose nerves are right. The sleeplessness comes entirely from a derangement of either the heart or nerves, or both, but whatever the cause Milburn's Heart and Nerve Pills give the blessing of sound refreshing sleep. They do this by their invigorating effect on the heart and nerves, and by restoring the whole system to a perfect condition.

Mrs. A. B. Martell, Rockdale, N.S., writes:—"I was troubled for a long time with my heart, had weak and dizzy spells, could not sleep, and would have to sit up the greater part of the night, and it was impossible for me to lie on my left side. At last I got a box of Milburn's Heart and Nerve Pills, and they did me so much good I got another, and after taking it I could lie on my left side, and sleep as well as before I was taken sick. They are the best medicine I ever heard of for heart or nerve trouble."

Price 25 cents per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

For sale by Red Cross Drug Store.

Electric Restorer for Men

THE GREAT FRENCH TONIC VIGORAL

The Medicine That Prolongs Life

Makes the Old Feel Young—Drives Out Disease—Gives Men and Women a New Lease of Life—Get a bottle of this Great Tonic To-day
Oatway, Drug and Stationer is the Sole Agent and Importer

VIGORAL is purely a Tonic. The man or woman who does not feel as bright and strong as nature intended, they should know it. They wake in the morning with a bad taste in the mouth, headache, no ambition to work, no desire to eat—the world has no pleasure for them. That person should take VIGORAL, the Great French Tonic, and after taking it for a few days will be bright, strong and ambitious; all pain and aches will be gone; the stomach will be sweet; the appetite will be natural; digestion perfect; blood enriched; nerves strengthened and sound health established.

VIGORAL is a Tonic for the kings. Rheumatism cannot live with VIGORAL. Indigestion, Kidney and Liver Troubles vanish; Nerves made Strong and Healthy, and all Physical Forces restored

VIGORAL is a reconstructor, being deadly opposed to disease of all kinds. If you would be Strong, Healthy and Robust, take VIGORAL. For sale in Wetaskiwin only at

Oatway's, the Leading Druggist & Stationer

MANUFACTURERS WILL SPEND TWO WEEKS IN ALBERTA

N. P. Lambers, a forerunner of the "Made in Canada Train" which will pass through Western Canada next month, is in the city making arrangements for the coming of the exhibit. This exhibit is unique. It is an exhibit of Canadian manufacturing on wheels. The train will consist of 12 cars, ten of which will contain the representative exhibits in which twenty-nine Canadian firms are represented. Representatives of the firms will accompany the train. The idea is not only to advertise the products of Canadian factories, but to enable the manufacturers to show the country and decide upon locations in western Canada.

The caravan will arrive in Alberta on June 6th, stopping at Medicine Hat all afternoon. On Saturday and Sunday, June 8 and 9, they will stop at Lethbridge. On June 10 they will be at Chesham, Staveland, Nanton, Fish River and Orokaka. On Tuesday, June 11 they will be at Lethbridge, Strathmore, Gleichen, Bassano and Brooks. They will be at Calgary on Wednesday, June 12. June 13 will be spent in at Carstairs, Dictionary and Olds. On June 14 stops will be made at Lethbridge, Red Deer and Lacombe. June 15 will be spent on the Lacombe branch, stops being made at Coronation, Castor and Stettler, and also a stop at Ponoka. The party will spend Sunday, June 16 and 17, in Edmonton. Stops will be made at Leduc, Wetaskiwin, Camrose, Bawlf, Daysland and on through to the east, leaving Alberta on June 20.

WOOLF RESIGNS SEAT IN ALBERTA LEGISLATURE

Edmonton, April 26.—Speaker Fisher has received the resignation of John Woolf, local member for the riding of Cardston, and has so informed the government. No writ has been issued for the vacancy, but it is believed that it will be issued soon and an election called at an early date.

John Woolf is one of the oldest legislators of the province. He was one of the four members of the Alberta legislature who sat in the Northwest Legislature, Premier Sifton, K. C.

Rutherford and John A. Simpson being the other three. He has represented Cardston since the creation of the riding and has the distinction of being the only Mormon member of any legislature in Canada.

Some time ago Mr. Woolf was appointed manager of a large land company in Nevada at a salary of \$25,000 per year. Though the constituency made no complaint, this made it impossible for him to continue as a member.

What Would You Give

to have a photo of those near and dear to you, should they be called away, before one had been taken?

You shall call at once and have your photo taken. You may say oh! I don't feel like it to-day, tomorrow you may be worse, or it may be too late. Think it over. Cloudy days are as good as bright in our studio.

F. L. TALBOT

PHOTOGRAPHER WETASKIWIN

Listen! you will look younger and feel younger if you wear our CLOTHES.

A man looks as old as he feels; he feels as old as he looks. To feel young and vigorous, to be able to do vigorous work, come today and buy a brand new suit of clothes. Dressing—"up" takes away the "down"—cast feeling.

Our clothing is so "cast" that it fits and holds its shape. This is why we shall have your trade when you once buy a suit from us.

We make money for ourselves by selling clothing at money-saving prices to you. Little profits makes our business big.
